

SOTE

SANCTUARIES OF THE EARTH
discover the earth beneath your feet

The Journey Begins

All images, including these 3D printed earth huts, are for inspiration only.

Sanctuaries of the Earth (SOTE) is a project to help heal the human spirit and Mother Earth. Crystals from all over the world are the foundation, epicenter and apex of SOTE.

In 2022-23, earth sanctuaries will rise up in Seattle, and communities around the U.S., exhibiting **curated colossal crystals** for the world to see. Every person, from every background, is invited.

SOTE inspires awe and curiosity by reconnecting people to the scientific nature and artistry of Mother Earth. Upon entering a crystal-filled earth sanctuary, visitors will experience a **Spark Wonderment** moment. Through programmatic partnerships visitors can accelerate **healing themselves, their communities and the Earth.**

In 2026-27, the SOTE movement will lead to the **The Museum of the Earth (MOTE).**

SOTE is globally inclusive and meant for all of us.

On a daily basis we're bombarded and traumatized by the events of world.

SOTE is a 180° experience.
